

Lab # 14

Introduction to GitHub

Lab Tasks:-

- Create account on GitHub.
- Upload any of your Java Project files and perform commit, push, pull and merge operations.

General

Repository name

☐ **Template repository**
 Template repositories let users generate new repositories with the same directory structure and files. [Learn more about template repositories.](#)

☐ **Require contributors to sign off on web-based commits**
 Enabling this setting will require contributors to sign off on commits made through GitHub's web interface. Signing off is a way for contributors to affirm that their commit complies with the repository's terms, commonly the [Developer Certificate of Origin \(DCO\)](#). [Learn more about signing off on commits.](#)
